MOUNTING AID FOR END CLOSURES

ISO 1167

ASTM D 1598

ASTM D 1599

The mounting aid for pipe samples is designed to facilitate the mounting and dismounting of endclosures for instance (models 1810 and 1784). The figure shows the electrical mounting aid.

Standard features

- 1 assembly cross
- 1 centring ring
- 4 holding rods
- Makes assembly and disassembly of large end closures easier
- CE conformity
- 4 expansion anchors for fastening on the base plate
- 4 tension belts for centring ring
- 4 nuts with patented quick fastener
- High-quality device components guarantee high reliability, a long service life and low maintenance costs

Options

- Manual mounting aid
- Chain sling assembly
